Workshop Attendees

Bring a mature houseplant that you would like to exchange.

All containers should be at least 6 inches. The container should be given with the plant.

Bring a card that gives the name of your plant and any applicable information. Be prepared to talk about your plant.

(How to take care of it, sun/shade/pruning, propagating, etc.)

Once everyone is in attendance and the plants are all lined up, numbers will be drawn.

#1 will choose a plant first.

#2 will choose second and so on.

After all the plants have been chosen, trading will commence.

Committee asks that all plants submitted be mature, healthy, and full.

We want happy workshop attendees!

A separate table will be available for pots, garden tools, books, etc. that can be traded. (Separate from the plants)
